Had Gloria not prayed to the goddess Aphrodite, the Cuban Missile Crisis would have ended differently. Aphrodite made it possible for Gloria to sit next to the cute boy in class, and stopped her Kotex from leaking. In college, Gloria abandons Aphrodite for alcohol and pot. Next, quarts of rocky road. Daily. Fortunately, she gets into recovery. But it's not enough. Thank God for antidepressants. They always work. Right?

THIS IS MY BRAIN ON DRUGS was developed with David Ford, who has collaborated with award-winning solo performers like Charlie Varon, Brian Copeland, and Marilyn Pittman. Mark Kenward has directed over 20 full-length solo show, including "Best of SF Fringe" shows by David Caggiano and Wayne Harris. Gloria has performed at Monday Night Marsh, Tell It On Tuesday, and studied Viola Spolin's Theater Games in New York.
